Please patronize these companies
 that provide this valuable service

Note: Any store selling new batteries is required to take back old ones.

Brake Fluid-is alcohol based. It's toxic when ingested. When bleeding brakes, catch the runoff in a jar. Brake fluid from a jar that's been opened for more than a few months probably has absorbed enough water to reduce its boiling point past the point of safety. To dispose of new or unused brake fluid, pour it into a container of cat litter. The brake fluid will evaporate within a few days. As with paint, keep this away from pets and children, and any source of ignition.

Company	Used Motor Oil	Filters	Batteries	Motors /Engines	Tires	Antifreeze	Transmission Fluid	Other
