# Composted Leaves

We will load your pickup truck or small trailer. You must have a tarp and a way to fasten it down (a tarp and bungees are available for \$10).

**We will not load trucks bigger than a pickup or trailers longer than 8 feet.** You can also self-load bags or other containers you provide; please bring your own shovel.

**You must bring this card** with you to be eligible for this offer. *While supplies last.*

Composted leaves have gone through a one-inch screen. This material may contain seeds, twigs, stones and other small items that were mixed in with the leaves when we received them.

**Composted leaves are a soil conditioner, not a mulch because it will support growth.**
