

## RESIDENTIAL

### Fluorescent Tubes and CFL Bulbs

Bring 4 ft. or 8 ft. fluorescent tubes **ONLY** to a Household Hazardous Waste Event held 6 times a year throughout the county.

Chester County is part of a 5 County Program so that you may go to another county if their dates are more convenient.

[www.chestercountyswa.org](http://www.chestercountyswa.org) For Residents/Fluorescent tubes

Chester County Solid Waste Authority/Lanchester Landfill does not accept CFL bulbs.

### If a fluorescent bulb breaks – Recommended Practice:

Close off the room to other parts of the building. Open a window to disperse vapor and leave the room for at least 15 minutes. Wear disposable gloves. Scoop fragments with stiff paper and wipe area with a damp disposable paper towel to remove glass fragments. All fragments should be disposed of in a sealed plastic bag. Tape can be used to pick up small pieces and powder. Do not use a standard vacuum cleaner. Avoid generating dust. The first time you vacuum, remove bag and dispose in 2 sealed plastic bags.
