

TO: All Haulers of Asbestos Containing Waste (ACW)

1. Haulers must call 24 hours in advance to schedule asbestos loads for disposal. Call (484)796-4043. Asbestos will only be accepted Monday –Friday from 8 am – 11 am.
2. Only loads that are properly packaged will be accepted. At a minimum, friable asbestos must be wetted and rendered non-friable. All ACW shall be sealed in leak-tight containers meeting one of the following descriptions:
 - Multiple leak-proof plastic bags with 12 mils cumulative thickness.
 - Single/multiple leak proof plastic bags with 6 mils thickness and enclosed in steel or fiber drums.
 - Each bag should have the standard asbestos warning label on them and they should also contain the name and address of the generator.
3. Category II non-friable asbestos containing waste must also be packaged in some way. Category II includes asbestos/cement (A/C) shingles, A/C tiles, and transite boards or panels containing more than 1% asbestos.
4. Each load of friable asbestos and Category II non-friable asbestos must be accompanied by a properly completed CCSWA Asbestos Manifest. Call (484) 796-4043 for manifests.
5. Category I non-friable asbestos containing waste can be disposed of as construction/demolition or regular debris. Category I ACW includes asbestos containing gaskets, packings, resilient floor coverings or vinyl asbestos floor tile, and asphalt roofing materials that contain more than 1% asbestos. An asbestos manifest is not required for the disposal of Category I ACW at Lanchester.
6. The rate for disposal of friable asbestos as well as Category II non-friable asbestos is \$210/ton.
7. Only asbestos generated in Pennsylvania will be accepted for disposal.

Please call Terry Devine at (484) 796-4043 with any further questions regarding asbestos disposal at the Chester County Solid Waste Authority's Lanchester Landfill.
